

"Barnabas, the Encourager"

Intimate Care Policy

St Barnabas CE Primary School

1) Principles

- 1.1 The school will act in accordance with the DfE guidance 'Keeping Children Safe in Education'(July 2015) to safeguard and promote the welfare of pupils.
- 1.2 This school takes seriously its responsibility to safeguard and promote the welfare of the child and young people and young people in its care. Meeting a pupil's intimate care needs is one aspect of safeguarding.
- 1.3 The Governing Body recognises its duties and responsibilities in relation to the Equalities Act 2010 which requires that any pupil with an impairment that affects his/her ability to carry out day-to-day activities must not be discriminated against.
- 1.4 This intimate care policy should be read in conjunction with the schools' policies as below (or similarly named):
 - safeguarding policy and child protection procedures
 - staff code of conduct and guidance on safer working practice
 - 'whistle-blowing' and allegations management policies
 - health and safety policy and procedures
 - Moving and Handling Policy and guidance notes
 - policy for the administration of medicines
 - Special Educational Needs policy
- 1.5 The Governing Body is committed to ensuring that all staff responsible for the intimate care of pupils will undertake their duties in a professional manner at all times. It is acknowledged that these adults are in a position of great trust.
- 1.6 We recognise that there is a need to treat all pupils, whatever their age, gender, disability, religion, ethnicity or sexual orientation with respect and dignity when intimate care is given. The child or young person's welfare is of paramount importance and his/her experience of intimate and personal care should be a positive one. It is essential that every pupil is treated as an individual and that care is given gently and sensitively: no pupil should be attended to in a way that causes distress or pain.

- 1.7 Staff will work in close partnership with parent/carers and other professionals to share information and provide continuity of care.
- 1.8 Where pupils with complex and/or long term health conditions have a health care plan in place, the plan should, where relevant, take into account the principles and best practice guidance in this intimate care policy.
- 1.9 All staff undertaking intimate care must be given appropriate training.
- 1.10 This Intimate Care Policy has been developed to safeguard children and young people and staff. It applies to everyone involved in the intimate care of children and young people.

2) Child focused principles of intimate care

The following are the fundamental principles upon which the Policy and Guidelines are based:

- Every child or young person has the right to be safe.
- Every child or young person has the right to personal privacy.
- Every child or young person has the right to be valued as an individual.
- Every child or young person has the right to be treated with dignity and respect.
- Every child or young person has the right to be involved and consulted in their own intimate care to the best of their abilities.
- Every child or young person has the right to express their views on their own intimate care and to have such views taken into account.
- Every child or young person has the right to have levels of intimate care that are as consistent as possible.
-

3) Definition

- 3.1 Intimate care can be defined as any care which involves washing, touching or carrying out a procedure to intimate personal areas which most people usually carry out themselves but some pupils are unable to do because of their young age, physical difficulties or other special needs. Examples include care associated with continence and menstrual management as well as more ordinary tasks such as help with washing, toileting or dressing.
- 3.2 It also includes supervision of pupils involved in intimate self-care.

4) Best Practice

- 4.1 Pupils who require regular assistance with intimate care have written Individual Education Plan, My Support Plan, Education Health Care Plan, health care plans or intimate care plans agreed by staff, parents/carers and any other professionals actively involved, such as school nurses or physiotherapists. Ideally the plan should be agreed at a meeting at which all key staff and the pupil should also be present wherever possible/appropriate. Any historical concerns (such as past abuse) should be taken into account. The plan should be reviewed as necessary, but at least annually, and at any time of change of circumstances, e.g. for residential trips or staff changes (where the staff member concerned is providing intimate care). They should also take into account procedures for educational visits/day trips.
- 4.2 Where relevant, it is good practice to agree with the pupil and parents/carers appropriate terminology for private parts of the body and functions and this should be noted in the plan.
- 4.3 Where a care plan or education/health plan is **not** in place, parents/carers will be informed the same day if their child or young person has needed help with meeting intimate care needs (eg has had an 'accident' and wet or soiled him/herself). It is recommended practice that information on intimate care should be treated as confidential and communicated in person by telephone or by sealed letter, not through the home/school diary.
- 4.4 In relation to record keeping, a written record should be kept in a format agreed by parents and staff every time a child or young person has an invasive medical procedure, e.g. support with catheter usage (see afore-mentioned multi-agency guidance for the management of long term health conditions for children and young people).
- 4.5 Accurate records should also be kept when a child or young person requires assistance with intimate care; these can be brief but should, as a minimum, include full date, times and any comments such as changes in the child or young person's behaviour. It should be clear who was present in every case.
- 4.6 These records will be kept in the child or young person's file and available to parents/carers on request.
- 4.7 All pupils will be supported to achieve the highest level of autonomy that is possible given their age and abilities. Staff will encourage each individual pupil to do as much for his/herself as possible.
- 4.8 Staff who provide intimate care are trained in personal care (eg health and safety training in moving and handling) according to the needs of the pupil. Staff should be fully aware of best practice regarding infection control, including the requirement to wear disposable gloves and aprons where appropriate.
- 4.9 Staff will be supported to adapt their practice in relation to the needs of individual pupils taking into account developmental changes such as the onset of puberty and menstruation.

- 4.10 There must be careful communication with each pupil who needs help with intimate care in line with their preferred means of communication (verbal, symbolic, etc) to discuss their needs and preferences. Where the pupil is of an appropriate age and level of understanding permission should be sought before starting an intimate procedure.
- 4.11 Staff who provide intimate care should speak to the pupil personally by name, explain what they are doing and communicate with all children and young people in a way that reflects their ages.
- 4.12 Every child or young person's right to privacy and modesty will be respected. Careful consideration will be given to each pupil's situation to determine who and how many carers might need to be present when s/he needs help with intimate care. SEN advice suggests that reducing the numbers of staff involved goes some way to preserving the child or young person's privacy and dignity. Wherever possible, the pupil's wishes and feelings should be sought and taken into account.
- 4.13 An individual member of staff should inform another appropriate adult when they are going alone to assist a pupil with intimate care.
- 4.14 The religious views, beliefs and cultural values of children and young person and their families should be taken into account, particularly as they might affect certain practices or determine the gender of the carer.
- 4.15 Adults who assist pupils with intimate care should be employees of the school, not students or volunteers, and therefore have the usual range of safer recruitment checks, including enhanced CRB checks.
- 4.16 All staff should be aware of the school's confidentiality policy. Sensitive information will be shared only with those who need to know.
- 4.17 Health & Safety guidelines should be adhered to regarding waste products, if necessary, advice should be taken from the DCC Procurement Department regarding disposal of large amounts of waste products or any quantity of products that come under the heading of clinical waste.
- 4.18 No member of staff will carry a mobile phone, camera or similar device whilst providing intimate care.

5) Child Protection

- 5.1 The Governors and staff at this school recognise that pupils with special needs and who are disabled are particularly vulnerable to all types of abuse.
- 5.2 The school's child protection procedures will be adhered to.
- 5.3 From a child protection perspective it is acknowledged that intimate care involves risks for children and young people and adults as it may involve staff touching private parts of a pupil's body. In this school best practice will be promoted and all adults (including those who are involved in intimate care and

others in the vicinity) will be encouraged to be vigilant at all times, to seek advice where relevant and take account of safer working practice.

- 5.4 Where appropriate, pupils will be taught personal safety skills carefully matched to their level of development and understanding.
- 5.5 If a member of staff has any concerns about physical changes in a pupil's presentation, e.g. unexplained marks, bruises, etc s/he will immediately report concerns to the Designated Senior Person for Child Protection or Headteacher. A clear written record of the concern will be completed and a referral made to Childrens Services Social Care if appropriate, in accordance with the school's child or young person protection procedures. Parents/carers will be asked for their consent or informed that a referral is necessary prior to it being made but this should only be done where such discussion and agreement-seeking will not place the child or young person at increased risk of suffering significant harm.
- 5.6 If a pupil becomes unusually distressed or very unhappy about being cared for by a particular member of staff, this should be reported to the class teacher or Headteacher. The matter will be investigated at an appropriate level (usually the Headteacher) and outcomes recorded. Parents/carers will be contacted as soon as possible in order to reach a resolution. Staffing schedules will be altered until the issue/s is/are resolved so that the child or young person's needs remain paramount. Further advice will be taken from outside agencies if necessary.
- 5.7 If a pupil, or any other person, makes an allegation against an adult working at the school this should be reported to the Headteacher (or to the Chair of Governors if the concern is about the Headteacher) who will consult the Local Authority Designated Officer in accordance with the school's policy: Dealing with Allegations of Abuse against Members of Staff and Volunteers. It should not be discussed with any other members of staff or the member of staff the allegation relates to.
- 5.8 Similarly, any adult who has concerns about the conduct of a colleague at the school or about any improper practice will report this to the Headteacher or to the Chair of Governors, in accordance with the child protection procedures and 'whistle-blowing' policy.

This policy was adopted by the Full Board of Governors on 14th July 2016

It will be reviewed: Summer 2018

Signed (Chair of Governors)

(NB recommendation - on a three yearly cycle)
