

Spring Term - Edison Class

Welcome Back

Welcome back to Spring Term. The children have already started back with a great attitude and ready to learn. Thank you for your continued support at home.

Maths

We are working on multiplication and division at the start of our term. It is very important the children keep practising their times tables.

- Know 2, 5 and 10's in order
- Know 2, 5 and 10's out of order
- Know 3 times table in order
- Know 3's out of order.

Topic Theme: Science

What's it made of?

We will be looking at:

- Different materials and their properties.
- Where materials come from?
- Which countries have different materials.
- Houses and their materials around the world.

There will be chance for parents to come in and help the children in their exit task. Dates to follow

R.E

How should we care for others and the world, and why does it matter?

English - Talk for Writing

This is a new approach to writing that we started at the beginning of the year.

First with our 'Little Charlie' story and then an information text on 'Orang-utans'. It is a fun, sometimes energetic way to enthuse children to write.

We learn a text off by heart with actions and story maps which helps the children with the structure of writing. We then innovate the text changing small details and then the children invent their own text with a similar theme.

P.E.

Mr Wilson continues to teach P.E. on a Friday afternoon. Please ensure that your child has a P.E. kit in school. Please ensure that tracksuit bottoms are included as P.E. may take place outside if the weather is good.

Reading

Please ensure that book bags are in school daily. This enables us to read in our allotted guided reading slots in class and allows us to change books regularly. Please also be reminded about the global reading challenge—an opportunity for us to enthuse children further about reading in a fun and competitive way.

Parents in Class

Wednesday 8th February 2017 8.40-9.00 am.
