St Barnabas CE Primary School

Relationships, Sex and Health Education Policy

'Barnabas the Encourager'

Date approved: February 2022

Date of Review: February 2023

Our vision is to ignite curiosity and delight in learning so we are ready for an ever changing, challenging world. We will build each other up to be unique individuals in a diverse community showing resilience and working positively together to make every day count.

Our core values of creativity, courage and compassion underpin our vision.

'So speak encouraging words to one another. Build up hope so you'll all be together in this, no one left out, no one left behind.' 1 Thessalonians 5:11

Policy Statement

At St Barnabas CE Primary School, we want young people to flourish and to gain every opportunity to live fulfilled lives. RSE is about the emotional, social and physical aspects of growing up, healthy relationships, sex, human sexuality and sexual health. It is also about the spiritual and moral aspects of relationships within a context of a Christian vision for the purpose of life.

As such in C of E Schools, Relationships, sex and health education lessons will help pupils to explore the foundational ethic of "Love your neighbour as yourself" (Mark 12.31).

Pupils will learn how to ensure that they treat themselves and others, at all times and in all contexts, with dignity and respect.

At St Barnabas CE Primary School, the RSE curriculum is underpinned by our values of Courage, Compassion and Creativity.

We undertake to follow the principles in the <u>Church of England Charter</u> for faith sensitive and inclusive relationships education, relationships and sex education (RSE) and health education (RSHE).

1. Aims

At St Barnabas CE Primary School we aim to provide a Relationships and Sex Education (RSE) programme that enables children to become healthy, independent and responsible members of their community and wider society.

We aim to provide opportunities for children and young people to reflect on and clarify their own values and attitudes and explore the complex and sometimes conflicting range of values and attitudes they encounter now and in the future.

Our RSE education contributes to personal development by helping pupils to build their confidence, resilience and self-esteem, and to identify and manage risk, make informed choices and understand what influences their decisions. It enables them to recognise, accept and shape their identities, to understand and accommodate difference and change, to manage emotions and to communicate constructively in a variety of settings.

This develops an understanding of themselves, their empathy and the ability to work with others which will help pupils to form and maintain good relationships and better enjoy and manage their lives.

This policy should be read in conjunction with the Safeguarding and Child Protection Policy, Behaviour Policy and Relationships, Relationships and Sex Education and Health Education document (DFE, 2019) and with the Jigsaw charter and lesson plans - the scheme adopted by the school to deliver this aspect of the curriculum.

The aims of relationships and sex education (RSE) at our school are to:

- Provide a framework in which sensitive discussions can take place
- Prepare pupils for puberty, and give them an understanding of sexual development and the importance of health and hygiene
- Help pupils develop feelings of self-respect, confidence and empathy
- Create a positive culture around issues of sexuality and relationships
- Teach pupils the correct vocabulary to describe themselves and their bodies

2. Statutory requirements

The DFE document states that:

'Today's children and young people are growing up in an increasingly complex world and living their lives seamlessly on and offline. This presents many positive and exciting opportunities, but also challenges and risks. In this environment, children and young people need to know how to be safe and healthy and how to manage their academic, personal and social lives in a positive way.' (Secretary of State Foreword, 2019)

As a maintained primary school we must provide relationships education to all pupils as per section 34 of the <u>Children and Social work Act 2017</u>.

We are not required to provide sex education but we do need to teach the elements of sex education contained in the science curriculum.

In teaching RSE, we must have regard to guidance issued by the secretary of state as outlined in section 403 of the Education Act 1996.

At St Barnabas CE Primary School we teach RSE as set out in this policy.

3. Policy development

This policy has been developed in consultation with staff, pupils and parents.

4. Definition

RSE is about the emotional, social and cultural development of pupils, and involves learning about relationships, sexual health, sexuality, healthy lifestyles, diversity and personal identity.

RSE involves a combination of sharing information and exploring issues and values.

RSE is not about the promotion of sexual activity.

5. Curriculum Content

We want to deliver a very well rounded SRE curriculum for our children. Therefore, we have a curriculum plan that we follow that covers the key aspects of SRE that we are required to cover, as set out in the statutory guidance. It also covers the PSHE education that we feel is important that is over and above the SRE.

This is the statutory aspect of Relationship and Science education that as a parent you cannot opt out of.

However, as a school we have decided to offer sex education in Year 6 for our pupils. This will focus on:

- Preparing boys and girls for the changes that adolescence brings. and the importance of looking after themselves emotionally during these changes.
- How a baby is conceived and born

We have developed the curriculum in consultation with parents, pupils and staff, considering the age, needs and feelings of pupils. If pupils ask questions outside the scope of this policy, teachers will respond in an appropriate manner so they are fully informed and don't seek answers online.

Our curriculum is formed by following the Jigsaw scheme of work and the relevant sections in the National Curriculum for Science. The detailed framework showing coverage of both PSHE and Relationships & Health Education is found at the end of this policy.

The Jigsaw Programme is aligned to the PSHE Association Programmes of Study for PSHE.

Jigsaw covers all areas of PSHE for the primary phase including statutory Relationships and Health Education. The table below gives the learning theme of each of the six Puzzles (units) and these are taught across the school; the learning deepens and broadens every year.

Term	Puzzle (Unit)	Content
Autumn 1:	Being Me in My World	Includes understanding my own identity and how I fit well in the class, school and global community. Jigsaw Charter established.
Autumn 2:	Celebrating Difference	Includes anti-bullying (cyber and homophobic bullying included) and understanding
Spring 1:	Dreams and Goals	Includes goal-setting, aspirations, who do I want to become and what would I like to do for work and to contribute to society
Spring 2	Healthy Me	Includes drugs and alcohol education, self-esteem and confidence as well as healthy lifestyle choices, sleep, nutrition, rest and exercise
Summer 1	Relationships	Includes understanding friendship, family and other relationships, conflict resolution and communication skills, bereavement and loss
Summer 2	Changing Me	Includes Relationships and Sex Education in the context of coping positively with change

At St Barnabas CE Primary School we allocate 30 minutes to PSHE each week in order to teach the PSHE knowledge and skills in a developmental and age-appropriate way.

These explicit lessons are reinforced and enhanced in many ways:

Assemblies and collective worship, praise and reward system, Learning Charter, through relationships child to child, adult to child and adult to adult across the school. We aim to 'live' what is learnt and apply it to everyday situations in the school community.

Class teachers deliver the weekly lessons to their own classes.

For further details please see the detailed framework showing coverage of PSHE and Relationships & Health Education at the end of this policy.

Please also see the document that outlines the aspects of the Science curriculum that form part of SRE as well as the stand-alone sex education for Year 6 children (Appendix 2).

6. Delivery of RSE

In our school, RSE is taught within the personal, social, health and economic (PSHE) education curriculum taught within our Jigsaw sessions, delivered weekly. Biological aspects of RSE are taught within the science curriculum, and other aspects are included in religious education (RE). The teachers will select the most appropriate way to deliver the sessions based on the age of the children and the nature of each individual lesson.

Pupils also receive stand-alone sex education sessions in Year 6, coordinated by the Year 6 teacher. Where a class is mixed year group, only children in Year 6 will receive this lesson.

The Jigsaw curriculum helps to provide the toolkit for developing our children and their character education to ensure they have knowledge, understanding and experience of well-being education and practices and knowledge of how to develop healthy relationships.

Through 6 carefully planned topics (underpinned by our Christian Values as the backbone and read in line with 'How Jigsaw Supports the Church of England Principles' document), we aim to build our children's character and promoting a healthy lifestyle.

The RSE Policy develops our children as individuals, preparing them for life. For example, Relationships Education focuses on teaching the fundamental building blocks and characteristics of positive relationships including:

- Families and people who care for me
- Caring friendships
- Respectful relationships
- Online relationships
- Being safe

All of our RSE areas of learning are taught within the context of family life taking care to ensure that there is no stigmatisation of children based on their home circumstances. Families can include single parent families, LGBT+ parents, families headed by grandparents, adoptive parents, foster parents/carers amongst other structures. We reflect sensitively that some children may have a different structure of support around them for example: looked after children or young carers.

7. Roles and responsibilities

- 7.1 The governing board will approve the RSE policy, and hold the headteacher to account for its implementation.
- 7.2 The headteacher is responsible for ensuring that RSE is taught consistently across the school, and for managing requests to withdraw pupils from [non-statutory/non-science] components of RSE (see section 8).
- 7.3 The subject leader will
 - Undertake monitoring of standards in RSE and use this to inform the subject action plan.
 - Provide leadership and management of their subject to secure high-quality teaching and learning.
 - Play a key role in motivating, supporting and modelling good practice for all staff.
 - Take a lead in policy development and review
 - To liaise with outside agencies and attend subject specific courses.
 - To report to the Head teacher and Governing Body on RSE-related issues.
 - To plan and organise the allocation and purchase of resources in accordance with available budget.

Staff are responsible for:

- Delivering RSE in a sensitive way
- Modelling positive attitudes to RSE
- Monitoring progress
- Responding to the needs of individual pupils
- Responding appropriately to pupils whose parents wish them to be withdrawn from the non-statutory/non-science components of RSE

Staff do not have the right to opt out of teaching RSE. Staff who have concerns about teaching RSE are encouraged to discuss this with the Headteacher. This involves all staff as all teachers will be expected to teach Jigsaw and the Science curriculum that is appropriate for the year group they teach. The Sex education section, which parents can opt out of, will take place as a short block of teaching in Year 6. The Year 6 teacher is expected to lead this learning but other staff known to the children may support with this.

7.5 Pupils

All Pupils are expected to engage fully in SRE and, when discussing issues related to SRE, treat others with respect and sensitivity.

However, as a school we recognise that some children may need aspects of the curriculum, or how it is delivered to be adjusted in order to meet the needs of individuals.

Support for SEND children follows the school's SEND Policy. The study of Jigsaw and Science will involve all children within the class in a variety of differentiated ways addressing all learning styles.

The class teacher will also ensure that the needs of any children who require further challenge are met through the lesson planning for this subject.

8. Parents' right to withdraw

Parents do not have the right to withdraw their children from relationships education. Parents have the right to withdraw their children from the non-statutory/non-science components of sex education within RSE which will take place in Year 6. A letter will be sent at the start of the term to introduce questions and areas that will be covered. See Appendix 3.

Requests for withdrawal should be put in writing using the form found in Appendix 4 of this policy and addressed to the headteacher.

Alternative work will be given to pupils who are withdrawn from sex education.

9. Training

Staff are trained on the delivery of RSE as part of their induction and it is included in our continuing professional development calendar.

The headteacher will also invite visitors from outside the school, such as school nurses or sexual health professionals, to provide support and training to staff teaching RSE as and when it is felt necessary.

10. Monitoring arrangements

The delivery of SRE is monitored by the SRE Leader. This is Mr Levick.

They will do this through:

- Observation of individual lessons and learning walks
- Monitoring of children's books
- Discussions between teaching staff and with children
- Observation of the learning environment

This policy will be reviewed every year as is the statutory requirement. They will consult with other stakeholders and take account of any national changes that need to be addressed. The policy will then go to the relevant Governor Committee for review and minuted at the following Full Governing Body meeting that it has been reviewed.

Appendix 4- Letter to be sent home at the start of the term in which Year 6 children are taught the 'Changing Me' unit.

Dear Parent/Carer,

Sex and Relationship Education in Year 6,

During this term we will be looking at the following areas as part of our Sex and Relationship Education (SRE) within school.

These topics cover some elements of Science and some elements of Personal, Social and Health Education (PSHE).

Your child will be studying the topics as detailed in the Science/SRE table, through the following questions:

- What sort of relationships do I have and how have they changed?
- What other types of relationships are there?
- How can I maintain and improve my relationships?
- Why are love and trust important?
- What or who might influence my decisions?
- Who can I ask for help? Where else might I get help?
- What should adults think about before they have a baby?
- How are babies made?
- How do parents not have babies?
- How does a baby develop in the uterus?

Appropriate questions that arise from the children during each lesson will be answered honestly. We recognise that parents play an important part in their child's SRE, and we would like to encourage you to explore these questions / topics with your child at home as well.

You have the right to withdraw your child from the elements of SRE which are not included in the National Curriculum. Please see the table to see which elements are statutory in our Science/PSHE education and which are not.

If you would like to discuss this, please contact the Headteacher.

Yours sincerely
